The code works fine when the submit button is pressed. However, when pressing the submit button and the invalid username is entered it throws an error and the program closes. I am at a loss of where to go from here. I think it has something to do with the DefaultCredentials as it does not reset if the invalid username is entered. What I have tried: Made the InvalidCredentials class the default class in the.vbproj Made the

With the first round of 2018 special elections, a handful of historically deep red states have picked up some Democratic strength. Tennessee, Montana and Mississippi are the first to have special elections since Democrats won the House. And Democrats have an uphill battle in Wisconsin. But in terms of Senate control, Democrats face a more challenging path. All of the Democratic seats in play are in states that Donald Trump won in 2016. And only Democrats have an advantage in terms of state legislative control. Democrats have a majority in 24 states, and Republicans have one in 26. That means Democrats have to net five seats, which is a challenging goal. These 10 seats are the ones that Democrats think they have the best chance
