It is the native format for several CAD packages including DraftSight, AutoCAD, BricsCAD, IntelliCAD (and its variants), Caddie and Open Design Alliance compliant applications. Draftsight is also one of the best ways to export 3D models. Draftsight 2020 offers a new level of interactivity to the traditional 3D models that are available in most CAD programs. Simply double-click your model in Draftsight 2020 to bring up a list of all the attributes on the model. This is the very same process as you would need to do on a physical model in, for example, a toolroom or workshop.
