Red Giant PluralEyes 4.1.1

PluralEyes Cracked is a video synchronization tool that allows you to import and export media files that you want to create with Red Giant software. PluralEyes Cracked is an integrated editing environment for RED software that allows you to merge two or more video libraries using RED software. Combined with the RED Tools app and the RED Tools plugin for Adobe Premiere Pro and After Effects, PluralEyes Cracked allows users to edit video in real time, sync it with their project, and then optimize the final result for publishing or later use.
